

RESEARCH PROJECTS: PRIMARY HEALTH CARE

Research Vision:

In partnership with our communities, lead a research agenda which improves health and wellbeing outcomes for Aboriginal and Torres Strait Islander People, empowers people to reach their full potential and strengthen research and researcher capacity and capability.

Centre for Research Excellence – Strengthening systems for Indigenous Healthcare Equity (STRIDE) 2020 – 2024

NHMRC Funded

Aim: To achieve equitable health care for all Aboriginal and Torres Strait Islander Australians through quality improvement and collaborative implementation research to strengthen primary health care systems.

Principal Investigator: Dr Veronica Mathews, University of Sydney.
Apunipima CI Yvonne Cadet-James.

Impact of short-term staffing in Aboriginal and Torres Strait Islander Primary Health Care Services. 2018 – 2020.

ARC Funded

Aim: To generate new knowledge about (1) the impact of short term staffing on remote Aboriginal Communities (2) the potential mitigating effect of community controlled and (3) co-design context-specific, evidence based retention strategies to be implemented by one or more Aboriginal Community Controlled Health Services.

Principal Investigator: Professor John Wakerman, Flinders University.
